# Features

---

- *Easy to add into your existing .NET Application (Web or Windows)*
- *Just copy folder dlls into your existing project*
- *Add the NetFix EZ YouTube Upload.dll reference into your project*
- *Assign your key properties in Web.Config or App.Config*
- *Call function UploadOnYouTube*

*That's it!*

- **Video Demo:**  
<http://www.youtube.com/watch?v=34Rt-1ESRW4>

# Minimum Requirement

## **Must have installed:**

Microsoft .NET Framework 3.5  
Visual Studio 2010 or 2008

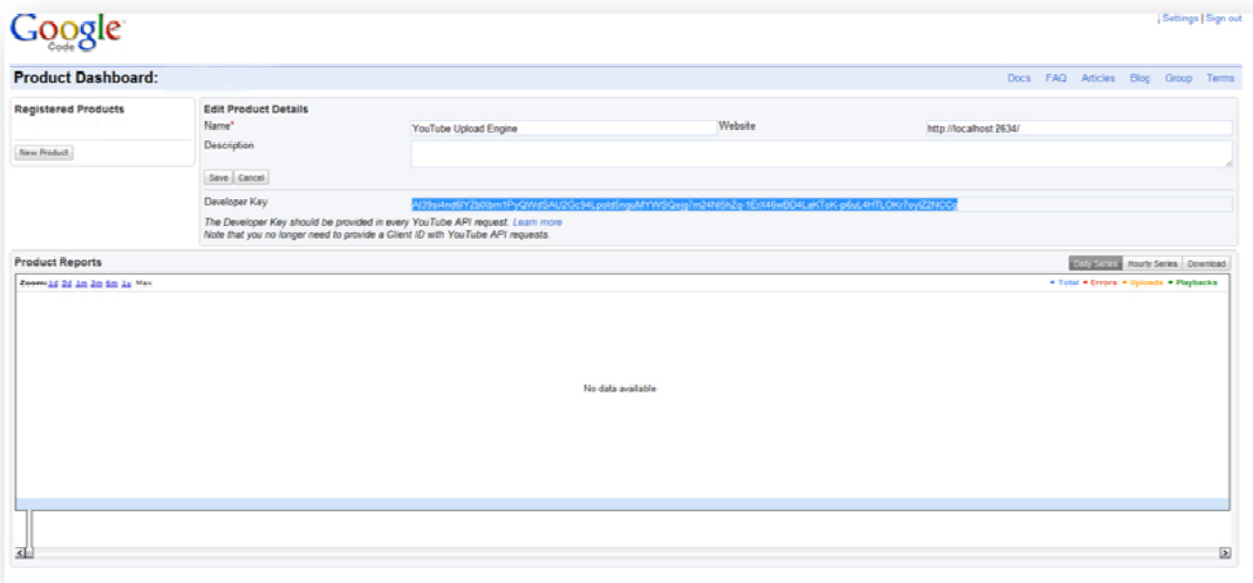

---

# YouTube Developer Key

---

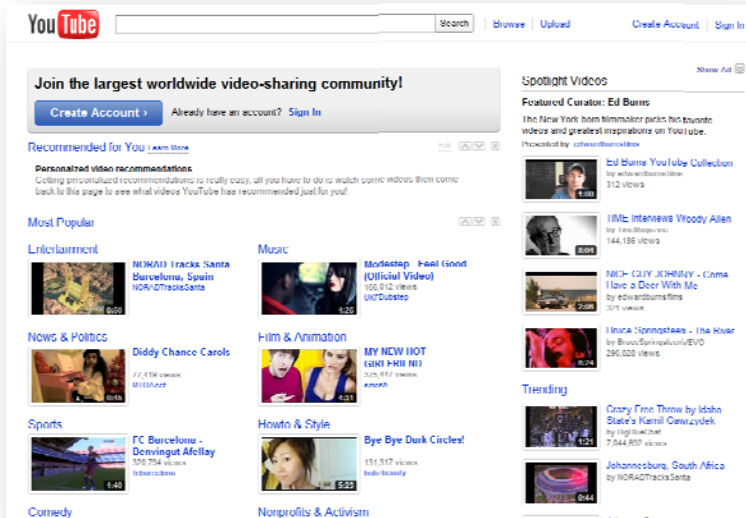

NetFix EZ YouTube Upload pre-requires that you have a developer API Key from YouTube developer account. If you don't have one you can get one from: <http://code.google.com/apis/youtube/dashboard/>

---

Show above is YouTube (website) where you can get your YouTube Developer Key after you login. You can use your existing YouTube login.

If you don't have YouTube.Com login then sign up here: <http://www.youtube.com>

## How to add NetFix EZ YouTube Upload into your web application.

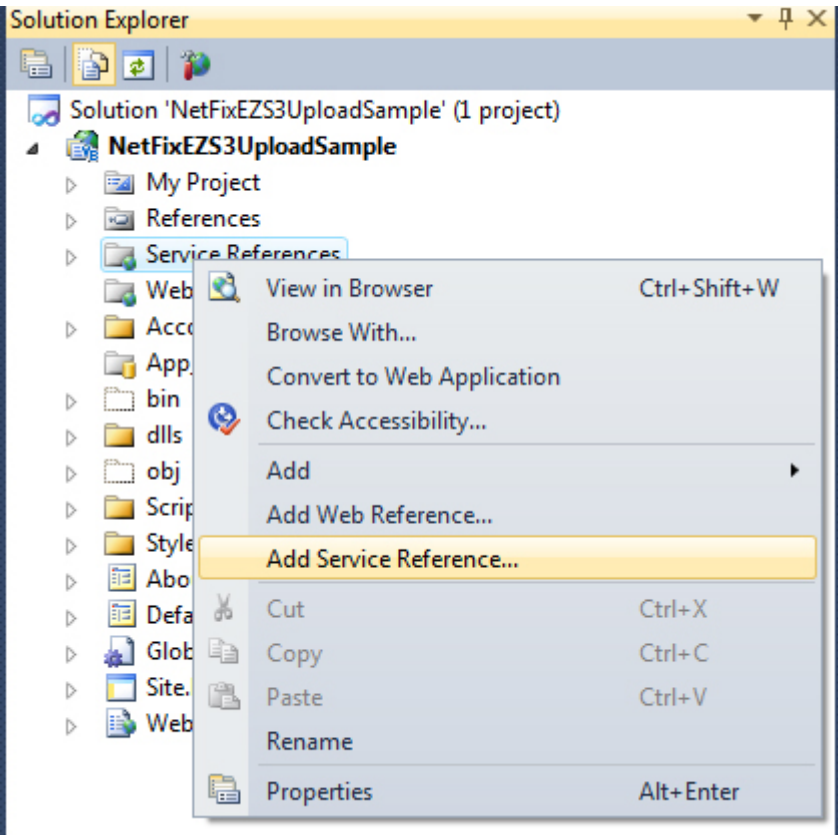

---

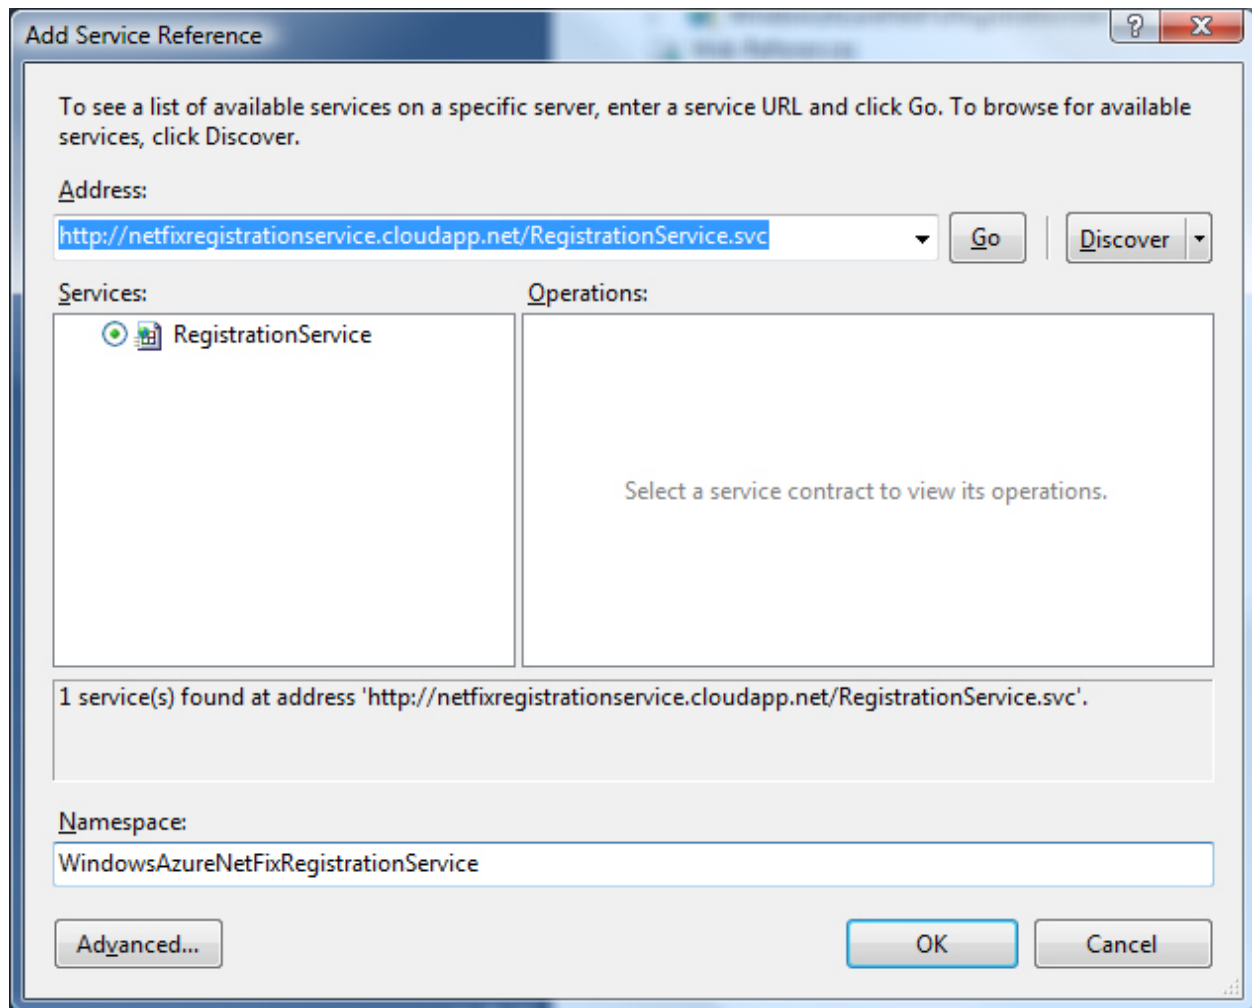

1. Extract all files in the "NetFixEZYouTubeUpload.zip" in a folder "NetFixEZYouTubeUpload" on your desktop.
2. Copy "dlls" folder from sample project into your .net project
3. Add Reference into your project for NetFixEZS3YouTubeUpload.dll found in "dlls" folder.
4. Add NetFix Registration Service Reference as shown below.

Service URL:

<http://netfixregistrationservice.cloudapp.net/RegistrationService.svc>

Make sure you save as Name: WindowsAzureNetFixRegistrationService

5. Copy and paste code from sample Default.aspx.vb file from "btnUpload\_Click" as shown below. Complete Sample code is already provided with this sample project.

```

'Call YouTubeUpload.UploadOnYouTube method here and send all your key values like:
'1: Developer Key
'2: YouTube UserName
'3: YouTube Password
'4: Type Video Title
'5: Type Video Description
'6: Type Video Keywords
'7: Type YouTube Categories (See YouTube categories list here: )
'8: FileUpload Control File Location
'9: File Content Type
'10: True(Make Video Private) or False(Make Video Public)
'11: Type City Name
'12: Type State Name
'13: Type Your Tags Here (YouTube Upload Engine, YouTube Upload Control for .NET)

uploadStatus = NetFixEZYoutubeUpload.YouTubeUploadEngine.YouTubeUpload.UploadOnYouTube(ConfigurationManager.AppSettings("youtubeDeveloperKey"), _
    txtyoutubeUsername.Text, txtyoutubePassword.Text, _
    "Type Video Title Text", _
    "Type Video Description", _
    "Type Video Keywords", _
    "Autos", _
    System.IO.Path.GetFullPath(FileUpload1.PostedFile.FileName), _
    FileUpload1.PostedFile.ContentType, _
    False, _
    "Type City Name", _
    "Type State Name", _
    "Type, Your, Tags ,Words")

```

6. Right above “<connectionStrings>” in your web.config file copy and paste <appSettings> as shown below .

7. Replace “myYouTubeDeveloperKey” with your YouTube Developer Key in Web.Config.

**8. IMPORTANT NOTE:**
